Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner and applicant discussed a basic summary of the claimed invention, and further discussed applicant's perceived differences between the prior art (Robarts) and the claimed invention. The examiner and applicant agreed that an amendment specifying a prioritized e-mail system in contrast to the previously claimed prioritized "notification system" would help to distinguish the claims over the prior art. Applicant stated their intention to file a formal amendment with the proposed changes.
